To: Whom It May Concern,

We would like to commend and extend our appreciation for one of your BSI assessors, Gary Barton. Gary has been the ISO14001 assessor for our plant over the past 3 years. He audits our facility with-out bias and strictly by the ISO14001 environmental guidelines and standards. Gary has a fantastic attitude and a good working relationship with TI Automotive Cartersville. We feel with our ongoing concerns for the environment and Gary's guidance, we will continue to make environmental improvements to help protect our employees, facility and community of any environmental impacts or issues.

Gary is highly respected and trusted by our management team here at TI Cartersville. This combination strengthens the partnership with TI Automotive Cartersville and BSI for our continued success in the future.

Gary is a great asset to your organization and his superiors should be very proud to have him representing BSI Management. We are proud to be associated with Gary and hope that our continued relationship will be extended into the 2005 business year and the future.

Sincerely,

Steve Gercak
